Curriculum Handbook 2024

Waimea College Vision and Mission Statement

Our Vision

Waimea College develops life-long learners who strive to impact the world for good.

Mission Statement

Waimea College is a place where:

- People from diverse backgrounds are supported and cared for.
- A broad spectrum of learning opportunities are catered to unique needs and delivered with excellence.
- Each person is inspired to increase their confidence, expand their expectations.

Waimea College Values and Behaviour Expectations

Manaakitanga - Caring

We always strive to care for ourselves, others and the environment.

Be kind to others
Use polite language
Look after your school environment

Whanaungatanga – Belonging

We take pride in being part of Waimea College and respect and celebrate our differences.

Be proud of your school
Wear your uniform correctly
Support and include others

Akoranga - Learning

We always strive to learn and grow.

Be ready to learn
Have a positive attitude
Display a growth mindset

Please note:-

- Students are deemed in law to be under the school's authority from the time they leave home in the morning until they return after school.
- Students attending or participating in any school activity outside normal school hours are bound by the school rules e.g. trips, weekend or evening sporting or cultural events.

Waimea College

Information for Students in Year 11, 12 & 13, 2024

The following information is for students studying NCEA. Most students will study Level 1 in Year 11, Level 2 in Year 12 and Level 3 in Year 13. However, the College operates a multi-level timetable that allows students to choose subjects from more than one level. Students should feel free to choose subjects at a level that is different to their year level, if that is appropriate.

Remember

1. Think more than one year ahead – for example if you are in Year 12 next year, think what you will be doing the year after that – have you got enough subjects that follow on? If you have some specific careers in mind, get advice on your subject selection.
2. If you don't have any particular employment or tertiary course in mind, try to keep your subject selection as wide as possible – don't close off future possibilities for yourself.
3. Choose subjects that you want to do and that you are good at.

We always try to place students into their preferred options, however all courses are dependent on reaching minimum student numbers and staffing availability.
Students will be advised if the school is unable to provide the subjects they select.
If a course is over subscribed, students will be required to take part in a selection process.

Information for Year 11 Students, 2024

- All students in Year 11 will need to choose a total of **six** subjects. Your course must include:
- 1. **English:** All students will study English. Students will choose one of the following options after discussion with their Year 10 English teacher. You can choose between English and English Literacy.
- 2. **Mathematics:** All students will study Mathematics. Students will choose one of the following options after discussion with their Year 10 Mathematics teacher. You can choose between Mathematics and Mathematics Numeracy.
- 3. The remaining **four** subjects should be chosen so that the student has a broad course that meets the requirements of the National Curriculum. College staff will check the chosen course, try to ensure that it is appropriate to the student, and that it meets all requirements. Most students will be required to choose their four subjects from at least three different optional curriculum areas on the subject choice sheet.

Information for Year 12 Students, 2024

- All students in Year 12 will need to choose a total of **six** subjects.
- All courses are optional, however you are strongly encouraged to take English or a subject that leads to University Entrance Literacy (in both Reading and Writing).
- Choose the remainder of your subjects from Year 12 options (or Year 11 options if you don't meet the criteria).
- Employment Skills counts as two subjects.
- If you have a particular career or tertiary course in mind, you should have your course checked by one of the Careers staff.
- Trades Academy students must also study English.
- Trades Academy students must choose a different Trades subject to their Waimea College course (e.g. students taking Hospitality at school cannot study Hospitality at Trades Academy).
- Gateway is available on application to Ms Madill.
- Trades Academy and Gateway subjects have limited numbers. Students will need to go through a selection process.

Information for Year 13 Students, 2024

- All students in Year 13 will need to choose a total of **five** subjects.
- Gateway is available on application.
- Students wishing to do six subjects should obtain advice from the Year 13 Deans, and they will need to apply to take this course of study.
- There are no compulsory subjects.
- If you do not meet the criteria for a Year 13 course, you may choose a Year 11 or Year 12 course in which you do meet the criteria. Please discuss this with a Dean or Careers staff.
- If you want to gain University Entrance your course must include a minimum of three of the subjects marked with (♦) – see subject code list.
- Trades Academy students must choose a different Trades subject to their Waimea College course (e.g. students taking Hospitality at school cannot study Hospitality at Trades Academy).
- Scholarship is available in many subjects. These have a (✓) next to them in the subject code list.

Note: There is a restriction on the number of Technology subjects that students can study. See online course descriptions for more details.

Subject pathways

Huarahi ako

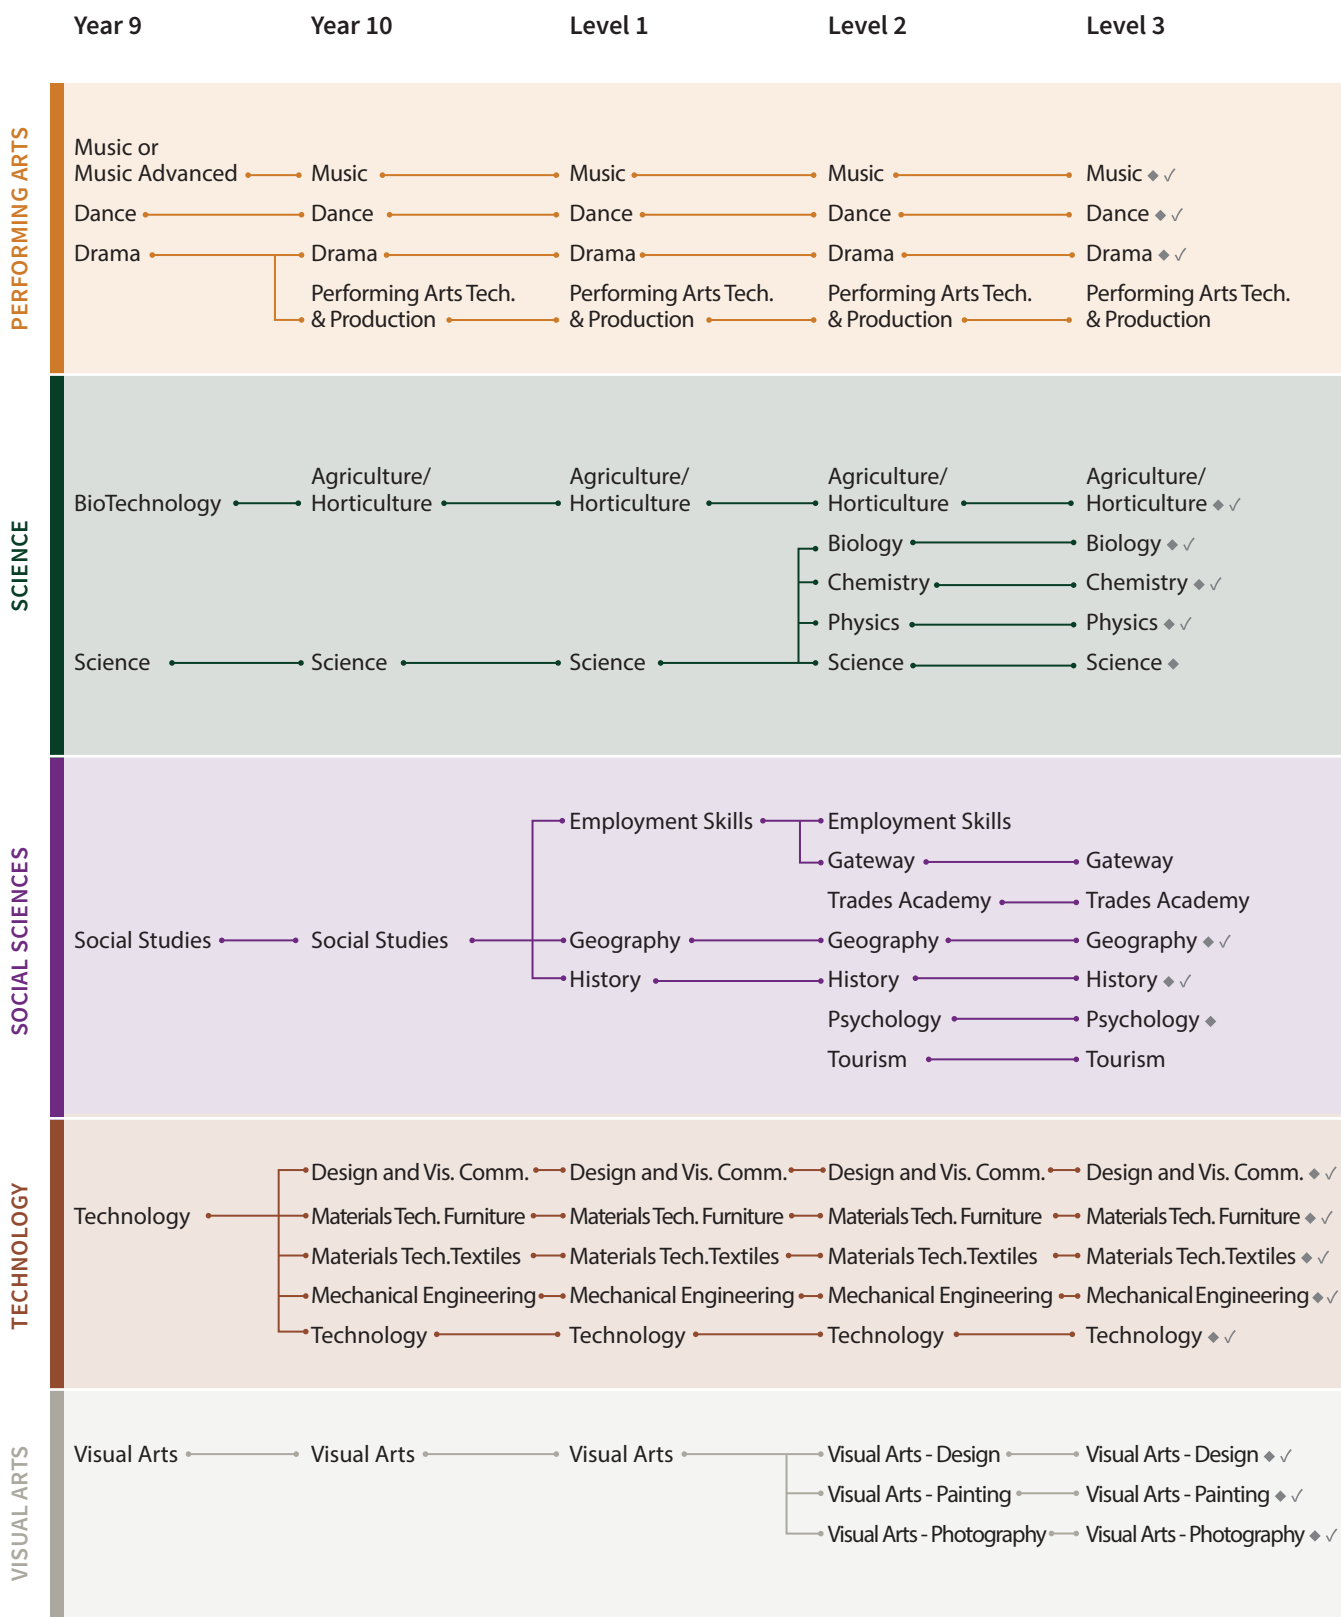

Year 9 and 10 Enrichment courses that focus on Key Competencies and Cross-Curricular teaching and learning are also part of all junior programmes.

Note: all courses are offered subject to sufficient enrolments.

Key:

- ◆ University Entrance subject
- ✓ Scholarship subject
- * May be offered by Correspondence

Qualifications

In 2024 to gain NCEA at each level students need to:

1. NCEA Level 1

To gain this qualification you need 60 or more credits at Level 1. Students also need to gain the Literacy and Numeracy co-requisite, each worth 10 credits.

2. NCEA Level 2

To gain this qualification you need Level 1 Literacy and Numeracy and a total of 60 or more credits at Level 2 or higher.

3. NCEA Level 3

To gain this qualification you need Level 1 Literacy and Numeracy and a total of 60 or more credits at Level 3 or higher.

4. How do I gain entrance to a New Zealand university?

University Entrance (UE) is the minimum requirement for getting into a New Zealand university. Many universities and other tertiary providers have further programme-specific entry requirements. You'll need to talk to them to find out the exact requirements for individual programmes of study, including limited entry programmes.

To gain UE you will need:

- NCEA Level 3
- 14 credits in each of three UE approved subjects
- Literacy – 10 credits at Level 2 or above, made up of:
 - 5 credits in reading standards
 - 5 credits in writing standards
- Numeracy – 10 numeracy credits at Level 1 or above.

KEY:

L1 Lit	=	Level 1 Literacy
Num	=	Level 1 Numeracy
W Lit	=	University Entrance Writing
R Lit	=	University Entrance Reading
B Lit	=	University Entrance Reading and Writing

Please note:

At time of printing every effort has been made to ensure the information contained in this booklet is accurate. However, it is possible that some course/assessment structures will change after printing.

Financial Matters

School Donation

Waimea College has joined the Ministry of Education School Donations Scheme and therefore the school does not ask parents or caregivers for a contribution towards the provision of additional support and resources for students.

Voluntary Donations

Families still have the option to make voluntary tax-deductible donations to the school. Further information is available from the Waimea College Finance Centre.

Other Fees

Contributions towards the cost of overnight camps, or optional activities beyond the standard curriculum offered, should be paid for as requested. Some of the subjects that require such a fee are Physical Education, Music, Outdoor Education and Employment Skills.

Sports and Extra-curricular Activities

Fees for optional activities such as sports/extra-curricular activities are a direct reflection of the cost for participating in that sport or event. Payment continues to be required for these items and needs to be paid prior to participation.

Computing Device

Most subjects will incorporate the use of a computing device in their courses. Please refer to the College website and newsletters for further information.
